I believe the foregoing statements to be correct.

Elias Driff
Postmaster at Wayne Colo Benjamin B. Maxson
Proposed Postmaster.
(OFFICE NEAREST TO PROPOSED OFFICE)

DIAGRAM, EXPLANATION, AND INSTRUCTIONS.

The dot in the center of the 1-mile circle represents the site of the proposed office.
The surrounding offices should be carefully located by placing dots on or between the mile circles at the exact distance, and in the right direction from the proposed site, and their names plainly written.
If it should be necessary to designate an office which is over 10 miles from the proposed site, place the dot outside of the 10-mile circle, write the name of such office, and state its distance from the proposed site.
Draw distinctly the railways, roads, rivers, and creeks.
