Division of Topography
 44-9

4901-2-112 (Location Paper)

IMPORTANT.—A map showing the location of your post office must be submitted with the return of this paper. A highway map such as prepared by State, county, or local agencies is preferred, if it can be furnished without expense to the Department. Be sure, however, to mark on it the exact site of the post office, placing a small dot in the proper square or block and on the proper side of the street.

If no map can be furnished it is necessary to draw a sketch on one of the diagrams below.

INSTRUCTIONS

These diagrams are furnished simply to make it easier to draw a sketch that will show correct distances from your post office.

SQUARE DIAGRAM

Use this diagram if your post office is located in an area described by section, township, and range, and you have filled in line 3 on the other side. Otherwise use the circular diagram.

Place a small dot representing your post office in the proper quarter-section and fill in the blanks for township and range numbers.

Then draw the following features:
(Note that one-half inch on the paper equals 1 mile on the ground.)

- Adjacent post offices (show with small dots and name).
- Railroads (show by single line with cross marks; name).
- Highways (show by double lines close together and mark U. S. and State numbers; name in margin the post office to which each road leads).
- Rivers, creeks, lakes, etc. (show by wavy lines and name).
- County line (show by dashes).

CIRCULAR DIAGRAM

Use this diagram if your post office is NOT located in an area described by section, township, and range.

Let the dot in the center of the circle represent your post office.

Then draw the features a, b, c, d, and e, as described above. (Note the scale of this diagram: One-quarter inch equals 1 mile.)

Post Office Department
FOURTH ASSISTANT POSTMASTER GENERAL
Washington

FEB 20 1914

SIR:

In order that the site of your post office may be accurately represented upon the post-route maps, it is requested that you carefully answer the questions below and furnish a sketch, according to instructions on opposite side of paper, which should be returned to this Division as soon as possible.

Respectfully,

To Postmaster at

Parker
Douglas Co.,
Colo.

Fourth Assistant Postmaster General.

The name of my post office is ParkerIf the town, village, or site of the post office be known by another name than that of the post office, state that other name here: (Railroad Station) ParkersMy post office is situated in the N. E. quarter of section No. 22, in Township 6 S.
Range 66 W. of the 6th principal meridian, County of Douglas
State of ColoradoThe name of the nearest river is Platte, and the post-office building is at a distance of Twenty miles on the N. E. side of it.The name of the nearest creek is Cherry, and the post-office building is at a distance of One half mile on the E. side of it.The name of the nearest office on my route is Hill Top, and its distance is Eight miles, by the traveled road, in a S. E. direction from this, my office.The name of the nearest office on my route, on the other side, is University Park, and its distance is 18 miles, in a N. W. direction from this, my office.The name of the nearest office not on my route is Franktown, and its distance is nine miles, by the traveled road, in a S. W. direction from this, my office.The post-office building is on the South side of the Colo. & Southern Railroad, and at a distance of 305 ft. from the track. by road road — 242 ft. direct.The railroad station name is ParkersMy post office is 3 1/4 air-line distance, S. from the nearest point of my county boundary.

Postmaster:

Victoria Nease

Date: March 5, 1914.

DIAGRAM, EXPLANATION, AND INSTRUCTIONS.

Indicate upon the diagram the site of the post office by placing a dot in the proper quarter section.
The surrounding offices should be accurately located and the names plainly written.

Draw distinctly the railways, roads, rivers, and creeks.

The post office is situated in the 7.2 quarter of section No. 22
in Township 6 S._{N. or S.}, Range 66 E._{E. or W.}, of the 6th principal meridian.

Change of site P

Post Office Department,

TOPOGRAPHER'S OFFICE,

Washington, D. C., Feb. 28, 1899.

Sir:

To enable the Topographer of this Department to determine, with as much accuracy as possible, the relative positions of Post Offices, so that they may be correctly delineated on its maps, the Postmaster General requests you carefully to answer the questions below, and furnish the diagram on the other side, returning the same as soon as possible, verified by your signature and dated, under cover to the Topographer's Office, Post Office Department.

Respectfully, &c.,

Topographer P. O. Dept.

To POSTMASTER AT Parker
Douglas Co.
Colo.
